THE PROBLEM

Mid-market companies are bleeding money on software nobody uses

WASTE RATE

30%

of annual SaaS spend wasted on unused seats, zombie apps & redundant tools

Source: Zylo 2025

UNUSED LICENSES

53%

of licenses go unused in any 30-day period — companies pay full price for half their stack

Source: BetterCloud 2025

MISSED RENEWALS

$200K+

lost per missed auto-renewal — 40% of companies still track renewals on a spreadsheet

Source: Vertice 2025

A **300-person company spending $500K/yr on SaaS** is silently wasting **$150,000 every year** — and has no single platform to find it. IT doesn't own it. Finance can't see it. Nobody's accountable.

THE SOLUTION

SaaS-Scrub: the autonomous SaaS ops platform for mid-market IT & finance teams

Connect once. Discover every subscription, surface every dollar wasted, eliminate it — automatically.

Zombie Detection

Surfaces apps with zero logins in 30+ days. Cancel before the next renewal.

avg 6 zombie apps found

AI Redundancy

Flags overlapping tools — Jira + Asana + Monday in the same org is money on fire.

avg $3,200/mo recovered

Auto Offboarding

Employee leaves? Auto-checklist: revoke access, transfer data, cancel licenses.

saves 4.5 hrs per offboard

Renewal Calendar

30/7/1-day renewal alerts. Never lose $200K+ to a missed auto-renewal.

100% of renewals tracked

WHY THE MARKET IS WIDE OPEN RIGHT NOW

Enterprise tools start at $50K/yr

Zylo, Torii & BetterCloud price mid-market out of the category entirely

50,000+ companies on spreadsheets

No dedicated SaaS ops tool exists for mid-market — they are unserved today

Pain is acute & measurable

Average 300-person company wastes $150K/yr — ROI story writes itself

BUSINESS MODEL

Three tiers. Self-funding at Enterprise.

PRIMARY REVENUE

STARTER

$0 /month

Up to 10 apps, manual entry. PLG funnel entry with low CAC.

- ✓ Up to 10 apps
- ✓ Renewal alerts
- ✓ Basic dashboard

GROWTH
